from $29.99
(While supplies last)

CUT CHRISTMAS TREE CARE TIPS

- **Keep your tree outdoors** or on an unheated porch or patio until you decide to take it in and decorate it. Keep it protected from the wind and sun also.
- **Make a straight, fresh cut** across the trunk about an inch or two from the bottom when you're ready to bring it in. This procedure opens the tree's "pores" so they can absorb water, much like cut flowers do.
- **Trees are thirsty!** Keep your tree in a water bearing stand. Depending on size and species, Christmas trees can drink from two pints to a gallon of water per day. Fill your tree stand daily.
- **If you use electric lights** for tree decoration, make sure all lights, wires, sockets, and plugs are in good condition!
